

Diaspora Gives Bangladesh (DGB) is a philanthropic initiative designed to engage with the Bangladeshi diaspora and provide them with an easy, safe, and effective model to give back to Bangladesh. DGB is an alliance led by CAF America with USAID and Chevron as instrumental partners. By providing a solution for international, tax-effective giving, DGB enables members of the diaspora to give in a concerted manner to support a variety of causes and geographic areas.

GIVING BACK FOR THE FUTURE

Diaspora communities wield a significant amount of financial and human capital, while having considerable interest in giving back to their home countries to address economic and social challenges. DGB's objective is to empower the Bangladeshi diaspora to tax-effectively channel philanthropic capital to their country of origin in ways that are beneficial for sustainable development.

Formerly, the Diaspora Investment Alliance, a program of the Aspen Institute and Rockefeller Foundation, CAF America's DGB aims to support the Bangladeshi diaspora around the world and we stand ready to assist.
